

# Your Guide to Prescription Drug Coverage

2021 PREFERRED FORMULARY DRUG LIST

# Important Contacts

For more information about your prescription drug coverage, call the phone number listed on your BlueCross BlueShield of Tennessee Member ID card. For information about your home delivery prescription, call **1-877-673-9165**.

## Visit [bcbst.com](https://www.bcbst.com)

- Find a pharmacy in your network
- Look up lower-cost prescription alternatives
- Compare your pricing and options

## If You Want Us to Rethink Your Request

You or your doctor may ask to reconsider any of these things:

- A denial of a drug benefit
- Limits on a drug quantity
- The details needed for prior authorization
- Getting a non-covered drug approved

You'll need written reasons from your doctor about why we should rethink your situation.

We look at all reconsiderations on a case-by-case basis. Your Evidence of Coverage or member handbook has details on your rights to file reconsiderations.

Fax all information to **1-888-343-4232**.

Or send a written request to:

**Pharmacy Management Reconsiderations  
BlueCross BlueShield of Tennessee  
1 Cameron Hill Circle  
Chattanooga, TN 37402-2555**

Please provide the following information with your request:

- Patient name and cardholder ID number
- Physician name and phone number
- Drug and diagnosis information

# Understanding the Formulary Drug List

This formulary drug list will help you understand the drugs your plan covers. The drugs in this formulary are listed by common categories, then alphabetically. They're placed into cost levels known as tiers. The tiers include generic, preferred brand and non-preferred brand drugs reviewed by a panel of physicians and pharmacists regularly and revised to reflect availability of new drugs and other changes in the market.

Some drugs have notes with letters next to them. The letters refer to certain pharmacy benefit programs. To make sure that prescriptions are used safely, some drugs have additional requirements you'll need to meet before we can cover your prescription. Those drugs will have an abbreviation next to the drug name to let you and your doctor know there are additional requirements.

For more information on how to fill your prescriptions, please refer to your Evidence of Coverage or member handbook on **bcbst.com** or call the phone number listed on your BlueCross Member ID card.

Abbreviation	Description
ACA	<b>Affordable Care Act</b> means drugs with the ACA indicator may be available to you at no out-of-pocket cost depending on your plan. Check your Evidence of Coverage or member handbook for plan details.
AGE-A	<b>Age Requirement</b> means a person who is within a specific age group will require prior authorization for the drug to be covered. Prior authorization is required for members 17 years of age and younger. Your doctor must call Express Scripts at 1-877-916-2271 to request approval for coverage.
LD	<b>Limited Distribution</b> means drugs may only be available at certain pharmacies. For more information, please call us at the phone number listed on your Member ID card.
MME	<b>Morphine Milligram Equivalent:</b> Your plan measures how strong each medicine is compared to morphine and limits the combined total, or MME. Prior authorization is required for members who take greater than 120 mg equivalents of morphine a day. Your doctor must call Express Scripts at 1-877-916-2271 to request approval for coverage.
PA	<b>Prior Authorization</b> may be required for certain drugs. Your doctor must call Express Scripts at 1-877-916-2271 to get approval before you may fill your prescription.
QL	<b>Quantity Limit</b> means you may have coverage for a limited amount of a specific drug.
SPRx	<b>Specialty Drug</b> includes drugs for chronic, serious diseases such as hepatitis C, multiple sclerosis, arthritis, hemophilia and other conditions. Some plans may cover specialty drugs at different benefit levels or may require the use of a network specialty pharmacy.
ST	<b>Step Therapy</b> is a prior authorization program that requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. Your doctor must call Express Scripts at 1-877-916-2271 to request approval for coverage. Please refer to the list included on pages iv-v for drugs that require step therapy.
#	Some plans do not cover these drugs. Check your Evidence of Coverage guide or Member Handbook for plan details.

# What's a Drug Tier?

Tiers are the different cost levels you pay for a prescription drug. Each tier is assigned a cost (copay, deductible or coinsurance), which your employer or health plan determines. This is how much you will pay when you fill a prescription. If you have a high deductible plan, the tier cost levels may apply once you hit your deductible. Check your Evidence of Coverage or member handbook for plan details.

## Generic Drugs

Generic Drugs have the same strength and active ingredients as the brand name – but typically are the most affordable and offer you the lowest available copayment or coinsurance. The active ingredient in a generic drug is chemically identical to the active ingredient of the corresponding brand drug. To help lower your out-of-pocket costs, we encourage you to choose a generic medication whenever possible. Look for these drugs under “Tier 1” in this formulary.

## Preferred Brand Drugs

Preferred Brand Drugs will usually have a slightly higher copay or coinsurance than generic drugs, but less than a non-preferred brand drug under your plan. These drugs are designated preferred brand because they have been proven to be safe, effective, and more affordable compared to other brand or over-the-counter drugs that treat the same condition. Look for these drugs under “Tier 2” in this formulary.

## Non-Preferred Brand Drugs

Non-Preferred Brand Drugs are those that generally have generic alternatives and/or one or more preferred options within the same drug class. You will usually pay the highest copay or coinsurance for a non-preferred drug under your plan. These drugs are listed as non-preferred because they have not been found to be any more effective than available generics, preferred brands, or over-the-counter drugs. Look for these drugs under “Tier 3” in this formulary.

# Step Therapy Requirements

**Step Therapy** requires you to first try certain drugs to treat your medical condition before we cover another drug for that condition. This chart lists the drugs that require step therapy before your plan will cover the medication.

Medication(s) Requiring Step Therapy	Step Therapy Requirements
Edarbi Edarbyclor	Trial and failure of a generic Angiotensin II Receptor Blocker (ARB), including candesartan, candesartan-hydrochlorothiazide, eprosartan, irbesartan, irbesartan-hydrochlorothiazide, losartan, losartan-hydrochlorothiazide, olmesartan, olmesartan-hydrochlorothiazide, telmisartan, telmisartan-hydrochlorothiazide, valsartan and valsartan-hydrochlorothiazide
Admelog Admelog SoloStar Apidra Apidra SoloStar Humalog Humalog KwikPen Humalog Junior KwikPen Insulin Lispro Insulin Lispro Kwikpen	Trial and failure of Fiasp, Fiasp FlexTouch or Novolog
Humulin	Trial and failure of Novolin
Proventil HFA <sup>QL</sup> Xopenex HFA <sup>QL</sup>	Trial and failure of albuterol sulfate HFA <sup>QL</sup> or ProAir RespiClick <sup>QL</sup>
Epidiolex	Trial and failure of <b>two</b> anticonvulsant products or <b>one</b> anticonvulsant product specifically indicated for Lennox Gastaut Syndrome or Dravet Syndrome.
Pentasa	Trial and failure of generic balsalazide, mesalamine, or sulfasalazine

For certain medical conditions, it is best practice to try a Tier 2 Preferred Drug before your plan will cover a Tier 3 Non-Preferred Drug.

You'll need to try at least one Preferred Drug before we'll cover a Non-Preferred Drug. Below is a table of Preferred and Non-Preferred Drugs for various medical conditions. Find your condition in the first column of the chart. If there are drugs listed in the second column, your doctor must prescribe at least one of those to determine effectiveness prior to prescribing a drug listed in the third or fourth columns.

Medical Condition	Preferred (Step 1)	Non-Preferred (Step 2)	Non-Preferred (Step 3)
Rheumatoid arthritis	Enbrel Humira Rinvoq Xeljanz/XR	Actemra SC <sup>3</sup>	Cimzia <sup>1</sup> Kevzara <sup>1</sup> Kineret <sup>1</sup> Olumiant <sup>1</sup> Orencia SC <sup>1</sup> Simponi SC <sup>1</sup>
Ankylosing spondylitis	Enbrel Humira Taltz		Cimzia <sup>1</sup> Cosentyx <sup>1</sup> Simponi SC <sup>1</sup>
Juvenile idiopathic arthritis	Enbrel Humira Xeljanz	Actemra SC <sup>3</sup>	Orencia SC <sup>4</sup>
Psoriatic arthritis	Enbrel Humira Otezla Stelara SC Taltz Tremfya Xeljanz/XR		Cimzia <sup>1</sup> Cosentyx <sup>1</sup> Orencia SC <sup>1</sup> Simponi SC <sup>1</sup>
Psoriasis	Enbrel Humira Otezla Skyrizi Stelara SC Taltz Tremfya		Cimzia <sup>1</sup> Cosentyx <sup>5</sup> Siliq <sup>1</sup>
Crohn's disease	Humira Stelara SC	Cimzia <sup>3</sup>	
Ulcerative colitis	Humira Stelara SC	Simponi SC <sup>3</sup> Xeljanz/XR <sup>3</sup>	
Non-Radiographic Axial Spondyloarthritis	Cimzia Taltz		Cosentyx <sup>1</sup>

1 Trial of TWO preferred (Step 1) products required [documentation required]

2 Trial of ONE preferred (Step 1) product required

3 Trial of Humira required

4 Trial of TWO Step1 or Step 2 products required [documentation required]

5 Trial of THREE preferred (Step1) products required [documentation required]

# Where to Get Your Prescriptions Filled

You'll need to show your Member ID card when you have a prescription filled. You may have to pay part of the cost for prescription medicines and supplies. Check your Evidence of Coverage or member handbook for specifics.

## Network Pharmacies

Our pharmacy networks include many retail drug store chains and independent pharmacies across the country. If your medication isn't for managing a long-term condition, the prescription is typically written for less than a 30-day supply. (See the Retail 90 and Home Delivery Network sections for information on 90-day supplies).

It's important that you always use an in-network pharmacy. If you don't, you'll have to pay all of the costs for your prescription. If you're outside Tennessee, you can find a pharmacy in our nationwide network. Check your Evidence of Coverage or member handbook for your pharmacy network details.

### How to find a network pharmacy:

- Go to **bcbst.com**.
  - Sign up for **BlueAccess<sup>SM</sup>**, our secure member portal.
  - Click on **Find a Doctor**.
  - Click on **Pharmacy** and select your **Pharmacy Network**.

Or

- Call **Member Service** at the number on the back of your Member ID card.

## Retail 90 Networks

Through Retail 90 Networks you can get up to a 90-day (three-month) supply of your prescriptions.\*

- With a three-month supply, you're less likely to miss a dose, and you don't have to refill as often, which can save you time and money.
- If you use a pharmacy that's not part of your Retail 90 Network, you're limited to a 30-day (one-month) supply.
- These networks are made up of some local pharmacies and drug store chains. Ask your pharmacy if they're part of your Retail 90 Network.

## Home Delivery

You can sign up for home delivery and have your prescription delivered right to your door. Home Delivery is for prescriptions with a 30-day (one-month) or a 90-day (three-month) supply.\* Call **1-877-673-9165** to get started.

### With home delivery you get:

- FREE standard shipping\*\*
- Access to a pharmacist 24/7
- Automatic refill reminders so you're less likely to miss a dose
- Extended payment plan available

## Specialty Pharmacies

Some serious medical conditions need specialty drugs. They may be given at the doctor's office or at home. Our specialty pharmacies are a special network of vendors, experienced in managing these specialty drugs and supporting you and your doctor. You and your doctor can find a list of specialty pharmacies at **bcbst.com**.

### Specialty drugs:

- Usually require a prior authorization
- Usually are limited to a 30-day supply
- Are usually only available from specialty pharmacies in our network. Check your Evidence of Coverage or member handbook for your pharmacy network details.

\*Your doctor will need to write your prescription for a 90-day supply.

\*\*Standard shipping costs are included.

# Tips for Using Your Prescription Drug Benefits

## Talk with your doctor.

Doctors are your partners, so discuss every aspect of your treatment, including the selection of drugs. The more you know, the better choices you can make.

Ask your doctor to check the list of drugs your plan covers before prescribing a medicine.

Give your doctor a list of all the medicines you take. Include medicines that don't need a prescription. This helps them choose medicines that work well together.

Advertising, social media or the internet may not be your best source of information. Discuss all your concerns with your doctor.

## Ask for generic drugs.

The U.S. Food and Drug Administration (FDA) requires generic drugs to have the same quality, strength and purity as brand-name drugs.

- Generic drugs work the same as brand name drugs, but cost less.
- Talk to your doctor about the different kinds of generic drugs.
- The formulary drug list has different tiers (levels) of drugs that you can use (see "What's a Drug Tier?" on page iii).
- You pay less for generic drugs almost every time.
- Under most BlueCross plans, if you request a brand name drug that has a generic equivalent, you pay the cost difference between the generic and brand name drug. Check your Evidence of Coverage or member handbook to see if this applies to your plan.

## Talk to your pharmacist.

Your pharmacist can answer questions about the drugs you take, help you avoid harmful drug interactions, and help you select appropriate, lower-cost generics and preferred brands whenever available.

- Have all of your family's prescriptions filled at the same pharmacy.
- By knowing all your prescriptions, your pharmacist can make sure all of your drugs work well together. This can help keep you and your family safe.

## Use over-the-counter (OTC) medicines to save money.

- OTC medicines are sold without a prescription.
- Some prescription drugs may not be covered under your plan because there is an OTC available that works just as well.
- Don't switch from a prescription drug to an OTC without talking with your doctor.

## Be safe with your prescriptions.

- Never share prescription drugs—even if it's for a member of the family.
- Keep all medicines safe from children, out of sight and out of reach. Lock them away, if possible.
- Don't stop using a prescription without talking to the doctor.
- Follow up with the doctor about any side effects.

## Some prescriptions need an approval for coverage.

- Some prescriptions require prior authorization or step therapy.
- Some drugs have limits on the amount of them that your plan will pay for.
- Network doctors usually know this and know how to get authorizations. However, you may want to show this formulary drug list to your doctor - especially if you use an out-of-network doctor or a doctor outside Tennessee.
